

**“The European Framework for the Digital Competence of Educators  
(DigCompEdu) &  
SELFIEforTEACHERS”**

Georgios Kapsalis  
on behalf of DigCompEdu - SELFIEforTEACHERS team

[DigCompEdu](#) is the European framework, which describes the competences required for educators to be digitally competent. It refers at all levels of education and building upon self-reflection it supports their action plans towards Continuous Professional Development (CPD) and learning. The framework is available in 10 [European languages](#) ([Spanish](#) and [Basque included](#)) and has over 34,000 unique downloads worldwide.

CheckIn is a free, online tool, which assists academics’ self-reflection upon their digital competence. In collaboration with [CRUE](#) it has been tested and validated in a two-rounds’ pilot study with over 5,000 academics and is available in [Spanish](#) and [English](#). CheckIn can be used by both individuals and groups of them and features glossary, results and a feedback report to level up.

[SELFIEforTEACHERS](#) is the new, free, online European tool to support school education teachers’ reflection upon their digital competence and how they can integrate digital technologies for innovative and effective teaching and learning. The tool is available in all 24 official EU languages (and 4 Spanish co-officials) and has been tested and validated in a two-rounds’ pilot study with over 4,000 teachers in 5 EU countries. SELFIEforTEACHERS can be used by both individuals and groups of them and features glossary, results, feedback report to level up, certificate of participation and digital badge.
